

MATERIAL SAFETY DATA SHEET

Page 1 of 4

Product Name: **KLEENSORB, NURSERY GRADE, GRANULAR DIATOMITE, DIATOMITE FINES**

Not classified as a hazardous substance according to criteria of NOHSC

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND COMPANY

Product name KLEENSORB, NURSERY GRADE, GRANULAR DIATOMITE, DIATOMITE FINES
Other names Diatomaceous earth, Amorphous silica
Product use Used as oil and water absorbent, cat litter, stock feed additive, soil improver.
Company Name Mount Sylvania Diatomite Pty Ltd.
Address Suite 401/309 Pitt Street, Sydney NSW 2000 Australia
Emergency Tel. +61 2 9052 8688
Telephone/fax +61 2 9052 8688

2. HAZARDS IDENTIFICATION

Not classified as hazardous according to the criteria of NOHSC. Must be stored under dry, well-ventilated conditions.

Not classified as dangerous goods according to the ADG code..

3. COMPOSITION/INFORMATION ON INGREDIENTS

Composition, Information on ingredients Diatomaceous earth, which is a natural product, derived from the remains of freshwater plankton. The product contains no detectable cristoballite. It may contain up to 3% quartz.

Chemical Ingredients	Powder	CAS	Proportion
	Name		
	Diatomaceous earth	61790-53-2	96%
	Silica as quartz	14808-60-7	<3%
		14464-46-1	

Other information **Mineralogy**
Amorphous silica as diatom microfossils generally 96%,.

4. FIRST AID MEASURES

Inhalation Move the victim to fresh air. Drink a glass of water to clear throat and blow nose to evacuate dust. If irritation persists see a doctor.
Ingestion Wash out mouth with water. If irritation persists seek medical advice.
Skin Wash gently with water and non-abrasive soap. If irritation develops and persists, seek medical attention.
Eye If contact with eye(s) occurs, wash with water while holding lid open. If irritation persists, seek medical attention.
First aid facilities Eye wash and normal washroom facilities.
Advice to doctor Treat symptomatically. The hazard from the product is the same as from any fine, inert dust. The product absorbs moisture and may cause dryness in contact with mucous membranes. Pre-existing upper respiratory and lung conditions such as bronchitis, emphysema or asthma may be aggravated by exposure to the dust.

5. FIRE FIGHTING MEASURES

Flammability The material is not flammable.
Means of extinction Use appropriate fire extinguisher for surrounding environment.

MATERIAL SAFETY DATA SHEET

Page 2 of 4

Product Name: **KLEENSORB, NURSERY GRADE, GRANULAR DIATOMITE, DIATOMITE FINES**

Not classified as a hazardous substance according to criteria of NOHSC

Special fire fighting procedures

Use NIOH approved self-contained breathing apparatus

Unusual fire and explosion hazards.

and full protective clothing to minimise skin exposure.

6. ACCIDENTAL RELEASE MEASURES

Increase ventilation. Wear sufficient respiratory protection and protective clothing and sweep up material avoiding dust generation or dampen spilled material with water to avoid airborne dust, then transfer material to a suitable container. Use absorbent paper dampened with water to pick up remaining material. Prevent the release from entering a waterway or sewer. Dispose of any contaminated material at an approved facility such as a municipal landfill.

7. HANDLING AND STORAGE

This material is stable and should be stored in a well-ventilated, dry, cool environment.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limits

The following National Occupational Health and Safety Commission (NOHSC)

Exposure limits apply:

SUBSTANCE	TWA	
	ppm	mg/m ³
-	-	-
Silica: amorphous (diatomaceous earth)	-	10
Dust, not otherwise specified	-	10

Other exposure information

TWA – The Time-Weighted Average airborne concentration over an eight hour working day, for a five-day working week over an entire working life. According to current knowledge these concentrations should neither impair the health of, nor cause undue discomfort to nearly all workers. These Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept as low as possible. Exposure standards should not be used as a fine dividing line between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Respiratory Protection

Where sufficient ventilation is not available avoid breathing dusts by wearing an AS 1716 approved particulate filter respirator. For the most appropriate respirator device, reference should be made to AS/NZS 1715/1716 standards publication, which deals with respiratory protective devices.

Eye protection

The use of chemical goggles or safety glasses with side shield protection is recommended.

Hand protection

The use of nitrile gloves is recommended.

Eng. Controls

Natural ventilation should be sufficient, however a mechanical exhaust system is recommended if the product is being handled in a poorly ventilated area.

Other information

Biological Limit Values: No biological limit allocated.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

White to light grey granules and/or dust.

Odour

No odour

Melting point

1500 degrees C (approx).

Boiling point

Not applicable

Solubility in water Insoluble

MATERIAL SAFETY DATA SHEET

Page 3 of 4

Product Name: **KLEENSORB, NURSERY GRADE, GRANULAR DIATOMITE, DIATOMITE FINES**

Not classified as a hazardous substance according to criteria of NOHSC

Specific gravity	Not available
Vapour pressure	Not applicable
Flash point	Not applicable
Flammability	Not flammable.
Flammable limits	Not determined.

10. STABILITY AND REACTIVITY

Stability	Stable under normal conditions of use.
Hazardous	Will not occur.
Polymerisation	
Incompatibility	None

11. TOXICOLOGICAL INFORMATION

Toxicology information No toxicology information is available for this product. However for crystalline silica the following data has been extracted from the Register of Toxic Effects of Chemical Substances:

TOXICITY

Inhalation (human) LCLo: 0.3/m³/10Y

Inhalation (human) TCLo: 16mppcf/8H/17.9Y

-Intermittent; focal fibrosis, (pneumoconiosis), cough, dyspnoea.

Inhalation (rat) TCLo: 50mg/m³/6H/71W

-Intermittent; liver – tumours.

WARNING: For inhalation exposure only : Crystalline silica (respirable size <=7µm) has been classified by the IARC as Group 1 CARCINOGENIC TO HUMANS.

NOTE: The physical nature of quartz in the product determines whether it is likely to present a chronic health problem. To be a hazard the material must enter the breathing zone as respirable particles. .

Inhalation Inhalation of dust may cause irritation to the mucous membranes and upper airways. Symptoms of exposure can include nausea, coughing, sneezing and breathing difficulties.

Ingestion Not a likely source of exposure. May cause irritation to the mouth, oesophagus and stomach.

Skin May cause drying of the skin resulting in redness and itching.

Eye May cause mechanical irritation in contact with the eyes.

Chronic Effects Prolonged or repeated exposure to this material may result in irritation to the eyes and respiratory tract. As this product may contain traces of respirable silica, bronchitis, silicosis, and lung cancer may occur if the required dust mask is not worn during prolonged and repeated exposure. Studies have shown that smoking increases the risk in persons exposed to crystalline silica.

12. ECOLOGICAL INFORMATION

Ecotoxicity No data is available for this material.

Persistence/degradability No data is available for this material.

Mobility No data is available for this material.

MATERIAL SAFETY DATA SHEET

Product Name: **KLEENSORB, NURSERY GRADE, GRANULAR DIATOMITE, DIATOMITE FINES**

Not classified as a hazardous substance according to criteria of NOHSC

13. DISPOSAL CONSIDERATIONS

Disposal method and containers Dispose of waste material at an approved municipal landfill or land application site. No special containers are required.
Other information In NSW, diatomaceous earth used as cat litter in a domestic situation can be disposed of with the normal domestic waste stream ie in the garbage bin. The NSW EPA does not regulate domestic waste sources.

14. TRANSPORT INFORMATION

Not classified as a Dangerous Good, according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

ADG UN Number None allocated
ADG Proper None allocated
Dangerous goods class None allocated
Subsidiary Risk None
Hazchem Code None allocated

15. REGULATORY INFORMATION

Poisons schedule Not scheduled
